[www.finaid.org](http://www.finaid.org)- List of loan programs for K-12

[www.slmeducationloans.com](http://www.slmeducationloans.com)- Sallie Mae, the leader in Educational Loans, we are not on the list of schools that work directly with Sallie Mae but parents are still able to apply for the same loan. The difference is that all communication is between the parents and Sallie Mae rather than Sallie Mae and the school.

[www.yourtuitionsolution.com](http://www.yourtuitionsolution.com) Your Tuition Solution offers fixed rate payment plans to cover the cost of tuition and related expenses at most private K-12 schools. The interest rates are fixed, and depend on the loan term, tuition amount and credit scoring. The interest rate ranges from 7.99% to 9.99% APR for those with good credit and are 3% higher for those with credit problems. (Rates as of June 2004.) There are no origination or application fees and there is no prepayment penalty. Payments can be spread over 12 to 60 months. Your Tuition Solution is a program of Premier Payment Solutions, Inc. **Restrictions** PBASF does not directly select the students who receive its scholarships; rather it selects schools which wish to participate in the program. The PBASF requires the selected schools to choose minority students who otherwise could not attend without scholarship assistance. The first step to receiving a scholarship is to contact the school; the school should contact the organization.

Check with your personal bank to see if they offer K-12 loans. Also, many companies and organizations offer scholarships to employees and members but do not publicize them. Ask your employer and organizations that you belong to about educational scholarships and grants.
